Education

University of Mississippi

Oxford, MS

- **Honors:** Center for Manufacturing Excellence, Honors College
- **Relevant Coursework:** Up to Calculus III, Computer Networks, Computer Organization and Assembly Language, Manufacturing Processes, Speech, Strategic Planning, Discrete Mathematics
- **Major:** BSCS in Computer Science minoring in Manufacturing
- **Programming Languages:** Python, Java, C, HTML/CSS

Lewisburg High School

Olive Branch, MS

- **Academics:** Ranked 14/312, 33 ACT Superscore / 32 ACT Composite, 4.68 GPA

Involvement

Center for Manufacturing Excellence

April 2024- Present

Sally McDonnell Barksdale Honors College

August 2023- Present

LHS National Spanish Honor Society, Vice President

August 2021- May 2023

- Obtained Mississippi Gold Seal of Biliteracy: Achieving gold in non-English Avant STAMP Assessment

Work Experience

- **Lean Manufacturing Intern** at Insituform Technologies Jun. 2025 - Present
 - Working on building current state of processes and analyzing optimization opportunities in Value Stream Map
 - Worked with other intern on creating digital forms to implement paperless manufacturing across the facility for data collection and analysis in Microsoft Power BI
- **Manufacturing Intern** at Corelle Brands Jun. 2024 - Aug. 2024, Dec. 2024 - Jan. 2025
 - Documented manufacturing processes through safety, quality, and production departments.
 - Created an app in Microsoft Power Apps for the purpose of digitally documenting machine start-up on the manufacturing floor
- **Team Member** at Moe's Southwest Grill Feb. - Aug. 2023, Dec. 2023 - Jan. 2024
 - Assisted all front and back operations, closing shift, and upheld company standards

Experiential Learning

- **Value Stream Mapping Study Project** at Parker Hannifin Corporation May. 2025
 - Studied principles of Value Stream Mapping and optimization with a team of diversely studying students from the Haley Barbour Center for Manufacturing Excellence
 - As a team, presented to the front office of Parker Hannifin, Panola County Economic developers, and professors from the University of Mississippi our suggested ideas of change for the plant
- **Takt Time Study Project** at Nissan Assembly Plant of Mississippi Jan. 2025
 - Studied principles of Lean and continuous improvement through experiential learning alongside peers from the Haley Barbour Center for Manufacturing Excellence
 - Worked as teams competing for most efficient takt time, personally worked as the creator of kaizen stations for the assembly line project
